

Paving of streets in Gornje Krajinice

Mayor of Leskovac, Goran Cvetanovic and Director of Directorate for Urban Planning and Construction, Slavisa Zlatanovic, visited the works in the village of Gornje Krajinice. This place has 1.5 km of paved road, with the sewage system introduced in spring. The value of works is RSD30 million and the contract with the contractor, the Mechanization Company from Vlasotince, was signed in the past year by the Directorate for Urban Planning and Construction.

Mayor of Leskovac, Goran Cvetanovic and Director of Directorate for Urban Planning and Construction, Slavisa Zlatanovic, visited the works in the village of Gornje Krajinice. This place has 1.5 km of paved road, with the sewage system introduced in spring.

The value of works is RSD30 million and the contract with the contractor, the Mechanization Company from Vlasotince, was signed in the past year by the Directorate for Urban Planning and Construction.

Mayor Cvetanovic expressed satisfaction that the works were completed and that the residents of Gornje Krajinice would get new paved streets. He added that the local government invested about RSD10 million in completion of the school in this village, and in this way the new local government fulfilled its promises concerning better living conditions for all citizens in 144 settlements in Leskovac and its surroundings.
